Karen/Wilkie – I received notice late yesterday regarding the FOIA shown below for “... all documents related to the review and approval by EPA of the Puerto Rico Underground Storage Tank Regulation” The response was due on 10/10/18. I’ve begun looking through emails to fashion a response. Since the request is for “... documents related to the review and approval ...”, and since EPA has not approved the PR UST regulations referenced in the FOIA request, could a response simply indicating such possibly suffice as a response? We will be reviewing for the SPA determination, though previous reviews indicated equivalency with EPA’s revised UST regulations.
